

Services: 3SO Strategic Sourcing Policies and Assignments

One of 3SO's primary operational objectives is to apply a consistent and transparent practice of material supply to its Equity Member Hospitals (EMHs) and to provide a cost effective solution for that supply. To ensure the success of that effort the organization acts under the guidance of the Ministry of Finance for the Province of Ontario and its associated BPS Directives.

The policy of 3SO generally mirrors the overarching protocol of the province and applies the same principles of governance and transparency with measureable benefits.
