

Lennox and Addington County General Hospital now Live with 3SO!

Lennox and Addington County General Hospital (LACGH) was on boarded to the 3SO Regional Supply Chain Management Service on January 23, 2012.

LACGH on boarding team members Andy Clow, Maggie Parr, Jeff Kerr, Tammy Prinzen, Maureen Magee

LACGH became the seventh and final member hospital to be on boarded to the 3SO regional procurement platform, following Perth and Smiths Falls District Hospital, Hotel Dieu, Quinte Health Care, Providence Care, Brockville General Hospital and Kingston General Hospital. All hospitals in South East Ontario (SEO) are now using SAP as their common "procurement to payment" platform.

With LACGH on boarded, 3SO is now managing 100 % of the SEO hospital regional medical surgical and other products/services procurement and logistics activity.

The on boarding of LACGH will also see the closeout of the regional supply chain transformation project which kicked off in September 2008. This does not however mean the end of work to ongoing improvements to regional supply chain operations in SEO.

The 3SO team continues to work diligently with our hospital partners to drive procurement savings and implement procurement and logistics best practices and operational efficiencies.

LACGH OR Unit Storage Location

Next steps:

The 3SO board will be working with management and member hospitals to explore initiatives which will drive further efficiencies in SEO supply chain operations.
