

Electronic Requisitioning Project

March 2018

Regional Update

E-Req Goes Live at QHC!

In order to achieve efficiencies in the requisitioning and purchasing process, our Region is implementing a supply chain electronic requisitioning (E-Req) tool.

E-Req allows Requisitioners and Approvers the ability to submit, approve and monitor purchase requisitions online.

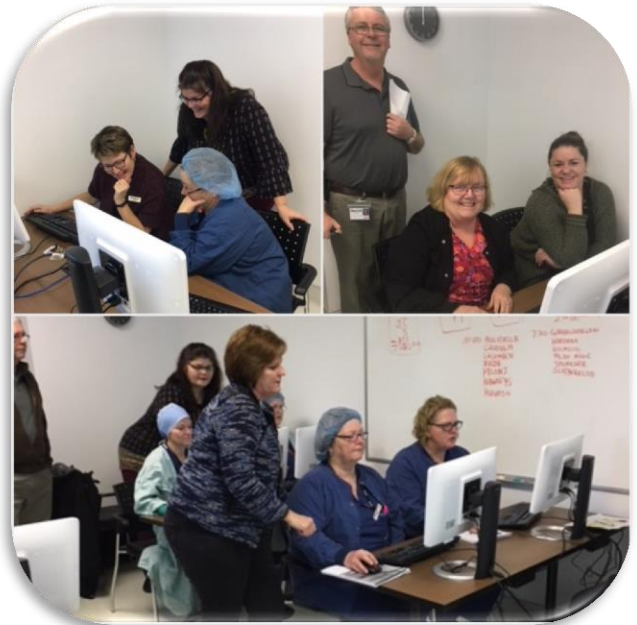

Onboarding of the 6 hospitals in the Region is nearly complete, with the most recent E-Req go-live at Quinte Health Care (QHC) in February.

The E-Req Project Team was on site at QHC for two weeks to provide training and general support to the new Users of the E-Req tool.

A total of 100 Users and 2 Buyers were trained at QHC.

The first phase of roll out of the E-Req tool will be completed next month with the KHSC go-live in April.
